

MAINTENANCE REQUEST SYSTEM Enhancements

May 2018

DISCLAIMER

- This presentation is for informational purposes only
- The content is point-in-time information, subject to revision

BACKGROUND

X12's maintenance request system is an integrated system that collects suggestions for revisions to X12 work products. The suggestions are then processed in accordance with X12 policies.

Enhancements are planned and will be rolling out periodically.

DIFFERENT PRESENTATION

There are some differences in the information presented and collected than what you may be used to from the disparate request systems that are being replaced.

For example, we have limited the number of selection options by type of work product being referenced to simplify the selection process.
