## 820 - Payment Order/Remittance Advice

This X12 Transaction Set contains the format and establishes the data contents of the Payment Order/Remittance Advice Transaction Set (820) for use within the context of an Electronic Data Interchange (EDI) environment. The transaction set can be used to make a payment, send a remittance advice, or make a payment and send a remittance advice. This transaction set can be an order to a financial institution to make a payment to a payee. It can also be a remittance advice identifying the detail needed to perform cash application to the payee's accounts receivable system. The remittance advice can go directly from payer to payee, through a financial institution, or through a third party agent. FUNCTIONAL GROUP-RA

# FEATURES

---

## Features include:

- Centralized site of products available in Glass:
  - [Products.x12.org](https://Products.x12.org)
  - The Products Site is an inventory of X12 products organized by major category
  - When an item is clicked in the Table of Contents, the right pane displays a description of the item, and in many cases, a link to the actual document in Glass
  - At initial launch, includes the Wordbook, EDI Standard, some Technical Reports, and Guidelines

# FEATURES

---

## Features include:

- Simple menu with these selections:
  - Change Password
  - Select another different product to view
  - Help Site [GlassHelp.X12.org](http://GlassHelp.X12.org)
  - Sign Out
- Ability to easily switch between versions
  - Example: While reviewing the REF segment in version 007010 and you click the Change Version button, select version 007060, the display will refresh to the same REF segment in version 007060.
