

X12C Purpose and Scope Statement

X12C is responsible for Standards, Guidelines, and Reference Models that govern technical components of the X12 EDI Standard and for other work products that apply across the industry specific subcommittees. X12C also develops and maintains interpretations, technical reports and guidelines related to its areas of responsibility.

X12C's scope includes the following responsibilities and activities:

- Development and maintenance of the X12 EDI Standards, Guidelines, and Reference Models related to interchange and application control structures and syntax, control and management transaction sets, architecture, data security, service specifications and other associated technical issues (excludes X12.61 EDI Design Rules and Guidelines, X12.3 Data Element Dictionary, and X12.22 Segment Directory)
- Development and maintenance of interpretations, technical reports and guidelines related to the technical components assigned to X12C
- Providing technical liaisons to other organizations involved in similar activities
