

# X12N/TGB – Business Task Group

## Purpose

The X12N Business Task Group (TGB) is a task group that reports to the X12N Subcommittee. This group oversees the work of multiple workgroups in developing business requirements pertaining to industry request for change or new development. TGB assures coordination among the workgroups under TGB as well as the X12N Technical Group (TGC) including, but not limited to, technical reports and data standards which:

- Support the development of business requirements supporting insurance including, but not limited to, benefit information, billing and encounter information, payments, invoice and premium payments, entity information, Property and Casualty administration, automotive subrogation, services review, provider information and enrollment information in support of, but not limited to, Health Care and Property & Casualty.
- Satisfy the functional business requirements established by other X12N Task Groups.
- Coordinate with TGC to ensure business requirements are implemented correctly.
- Coordinate with the liaison, where assigned, with other X12 Subcommittees if applicable.

## Scope

The Task Group shall adhere to the applicable X12 Organization and Procedures Manual, Standing Documents, and X12N procedures. The highest level documents of X12 or X12N shall govern in the event of conflict.

The Task Group's principal responsibilities are to:

- Create and maintain X12N TGB procedures for development of business requirements.
- Develop business requirements.
- Collaborate on business issues with other X12 Subcommittees and external organizations involved in insurance activities.
