

# X12N/TGC/WG4 – Technical Design Group

## Purpose

The X12N Technical Task Group (TGC) Technical Design Work Group 4 (WG4) reports to the Technical Task Group.

The group is responsible for the design, development and maintenance of work products including, but not limited to data standards which:

- Support the efficient exchange of business information for insurance including, but not limited to, Health Care and Property & Casualty.
- Comply with X12 standards, design rules, and guidelines.
- Satisfy the functional business requirements established by other X12N task groups.

## Scope

The Work Group shall adhere to the applicable X12 Organization and Procedures Manual, Standing Documents, and X12N procedures. The highest-level documents of X12 or X12N shall govern in the event of conflict.

The Work Group's principal responsibilities are to:

- Provide technical guidance to X12N or TGC concerning design of work products for exchange of insurance information.
- Review and/or develop technical solutions when requested by X12N/TGC/WG3 including preparation and submission X12 Data Maintenance Requests, and Code Maintenance Requests to support X12N work products.
- Monitor and review Data Maintenance items where X12N has interest when assigned by X12N Management.
- Collaborate on technical issues with other X12 Subcommittees and external organizations involved in insurance activities.
- Evaluate and respond to technical issues related to Requests for Interpretation (RFIs) when requested by X12N/TGC/WG2.
- Advise X12N management regarding technical impacts of activities of other subcommittees.
