

X12-02 CMG01

Statement of Work

CMG01, the Transitional Code Maintenance Group, operates as a permanent action group within the External Code List Oversight (ECO) Subcommittee of the Registered Standards Committee (RSC).

CMG01 is responsible for maintaining X12 external code lists when maintenance responsibilities have not been assigned to a designated Code Maintenance Group (CMG). The detailed responsibilities of a CMG are defined in ***External Code Lists (CAP12)***.

These external code lists are assigned to CMG01.

Code List ID	Code List Name	Code List Description	Used in these EDI Standard Transactions
967	Provider Adjustment Reason Codes	These codes report payment adjustments that are not related to a specific claim, bill, or service.	835
973	Industry Specific Remark Codes	These codes convey information about remittance processing or further explain an adjustment already described by a Claim Adjustment Reason Code (CARC) published in ECL 139.	835
974	Claim Adjustment Group Codes	These codes supplement the adjustment reason codes and remark codes.	835
979	Insurance Descriptor Codes	These codes describe, identify, or clarify the insurance being reported in an eligibility and benefits response.	270, 271
981	Service Type Descriptor Codes	These codes further clarify a benefit response which cites a Service Type Code published in ECL 958.	270, 271
