

X12-02 ECO Subcommittee Mission

The External Code List Oversight Subcommittee (ECO, pronounced echo) operates within the Registered Standards Committee and is responsible for the integrity and efficiency of X12's external code lists. The ECO shall understand best practices related to code lists across industries and shall apply such best practices to X12's external code lists when applicable, shall maintain related policies and procedures, and shall oversee the maintenance of all of X12's external code lists.
